

## East Platform Winter Conditions

Construction on the east train platform is postponed until spring due to winter conditions.

The platforms will be open for Metra rider use, but accessibility is limited due to some sidewalk closures. Please see the pedestrian access routes illustrated on this form.

Riders are advised against crossing Wolf Road near the railroad tracks. There is no designated crosswalk at this location and no pedestrian landing is currently in place to receive pedestrians.

ADA access to the platforms is located near the west entrance at Lawn Avenue

**This pedestrian route is anticipated to take effect**

**12/12/17**
