- **Stage 2: Early August – Early September**
  - Half of roadway and driveway apron removal and replacement
- **Stage 3: Early September – Early October**
  - Second half of roadway and driveway apron removal and replacement
  - Intersection reconstructions
- **Stage 4: End of August – November**
  - Installation of ADA sidewalk crossings
  - Topsoil and new sod installation
  - Pavement striping

**Construction schedule is estimated and may change**

# AVAILABLE ON-STREET PARKING

# RESIDENT IMPACTS - CONSTRUCTION HOURS

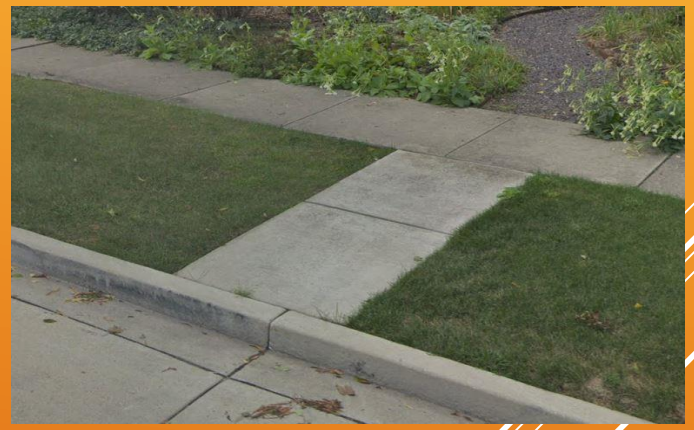
- **Weekday: 7:30AM –7:00PM**
  - *Certain phases of construction (concrete pours, pavement striping, etc.) may require the contractor to start earlier*
- **Saturdays: 9:00AM – 6:00PM**
  - *Contractor is required to notify the Village one week prior*
- **Sundays: No Work Allowed (unless a permit is acquired)**
- Village Board, may allow changes to the start time in emergency or time dependent situations

# RESIDENT IMPACTS – TRAFFIC AND EQUIPMENT STORAGE

- **Road Access**
  - Outside of construction hours, one-way traffic will always be available
  - Limited access during construction hours
- **Equipment Storage**
  - All equipment and materials will be stored within Village right-of-way
  - May be barricaded/taped off in street or in the parkway
- **Golf Cart Service**
  - Public Works operated pick-up/drop-off
  - Available Monday-Friday (7:30AM – 4:00PM)
  - Call an hour in advance. Contact info at www.wsprings.com/roads

# RESIDENT IMPACTS – DRIVEWAY APRONS AND CARRIAGE WALKS

- Existing concrete and asphalt driveways will be replaced with concrete, unless asphalt is requested in writing from the resident (**Municipal Code 8-2-8)**
- Brick paver driveways will be re-installed, unless otherwise requested from the resident
- Specialty driveway aprons (ex. stamped concrete, slate/bluestone, etc.) will be replaced with standard concrete. Residents may choose to replace their apron with specialty materials at their own cost
- Carriage walks, or the short walkway between the sidewalk and curb, will be removed and replaced, unless otherwise specified by the resident
- Any stairs located in the parkway will be removed and not replaced



# RESIDENT IMPACTS – SPRINKLER SYSTEMS

- All sprinkler systems within the Village right-of-way, and 3 Feet behind the sidewalk should be visibly marked before construction begins
- Damage to marked sprinkler systems will be repaired by the Village at the end of the project
- Damage to unmarked sprinkler systems will not be repaired by the Village

# GREEN INFRASTRUCTURE IMPROVEMENTS – REID/PROSPECT ISLAND
