

## 2021 FIRE HYDRANT FLUSHING

Hydrant flushing will begin **Monday, April 5, 2021**. The purpose of this procedure is to ensure there is adequate water pressure to the fire hydrants. The flushing will be done from 8 a.m. to 4 p.m.

Field Park	April 5-6	Forest Hills/Commonwealth	April 14-15
Old Town North	April 7-9, 12	Fairview Estates	April 16
Ridge Acres	April 13	Springdale	April 19-20
Old Town South	April 13	Ridgewood	April 21

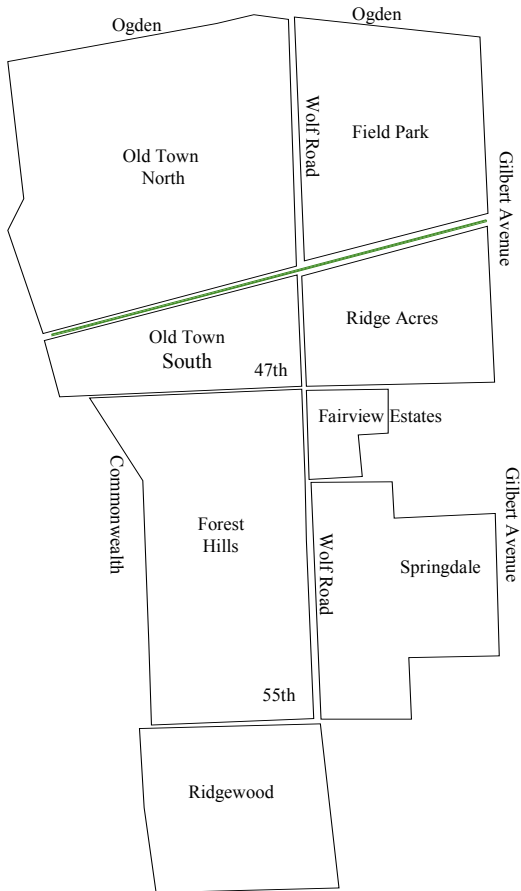

***Timber Trails and Ridgewood Oaks are not included in this flushing***

Residents may notice discoloration of the water when the flushing takes place. If you experience discoloration, run the cold water from a fixture that is located on the lowest level of the house until the water runs clear. Avoid doing laundry or using the dishwasher until the water runs clear.

Due to the water mains being "looped" or interconnected, there is no control over sediment or discoloration in the water in areas not being directly tested. If you notice discolored water in your area, please refrain from using the water until it runs clear. **Dates are an anticipated time frame. Responses to emergency calls may alter the schedule.**

If any further information is needed, please call Public Works at 246-1800, Ext. 200. For daily schedule updates, please call 246-1800, Ext. 305 or visit [www.wsprings.com](http://www.wsprings.com).
