

TUESDAY TOPICS

July 27, 2021

This week's update will focus on various construction and infrastructure projects in and around the Village.

Ogden Avenue: IDOT's resurfacing project on Ogden Avenue is substantially complete.

Wolf at Burlington/Hillgrove: The [railroad crossing](#) at Wolf and Hillgrove/Burlington has re-opened after BNSF laid new tracks. Please continue to have patience, exercise caution, and keep watch for pedestrians and bicycles, especially children, when driving throughout the Village.

West Pedestrian Underpass: The BNSF started setting pile this past weekend for their portion of the [project](#). BNSF work is anticipated to continue through the end of August, after which point the Village will begin its portion of the project. Depending upon BNSF construction schedules, work on the underpass may continue this fall, or even into spring.

Plainfield Road Bridge: The Illinois Tollway began work last week to rebuild the [Plainfield Road Bridge](#) over I-294. The bridge will remain open to traffic throughout the reconstruction, which should be completed by the end of 2022.

Historic Tower Soffits: Work on the historic tower soffits is anticipated to begin this week and will take approximately one month to complete. An aerial lift will be located on the tower green while the soffits are repaired and re-painted. Residents are advised to be aware of their surroundings and of the ongoing work on the tower green.

Sewer Repair Work at Hillgrove and Franklin: Spot sewer repair work is anticipated to begin within the next two weeks on Hillgrove Avenue near the intersection of Franklin Avenue. Expect daily lane closures while the sewer repair work is completed.

Hillgrove Avenue: Continued Tollway and BNSF work along Hillgrove Avenue from Prospect Avenue to the Public Works facility is tentatively scheduled to begin after Labor Day. Work includes the installation of new storm sewer and water main on Hillgrove Avenue. While the schedule is not yet confirmed, once the work begins it is expected that Hillgrove Avenue west of Prospect will be closed for the duration. Look for additional information on project scheduling in August.

2021 Roadway Projects:

Rose/Grove Reconstruction: This [project](#) includes concrete reconstruction of Rose Avenue between Maple/Oak, and Grove Avenue between Ogden/Chestnut. It will also include existing sewer repair and new water main installation on portions of Rose and Grove. A resident meeting was held this past week and the Village is awaiting a pre-construction schedule from the contractor. The project should begin in early August. Sign up for [project updates](#) on the website.

Grand Avenue from Lawn Drive to Linden Circle: This [project](#) is underway and consists of concrete reconstruction of the road and installation of a new storm sewer. The project is expected to be substantially complete this fall. Learn more and sign up for [project updates](#) on the website.

Asphalt Resurfacing: A number of local streets will undergo [asphalt resurfacing](#) this year and asphalt patching at various locations within the community is anticipated to take place through the end of August.

Until next week,

Alice Gallagher,
Village President
