CONSTRUCTION NOTICE 3/25/2022

ROSE AVENUE RECONSTRUCTION Oak Street to Maple Avenue

Dear Resident,

Work scheduled for week of 3/28

The Contractor has advised they expect to place traffic control devices and will implement the closure of the east side of Rose Avenue next week. **The Contractor also plans to start pavement removal work on the east side of the street the week of 3/28.** The exact start date is not yet known and is dependent on weather conditions and progress of the current removal operations that are occurring on Grove Avenue.

Driveway Access for East Side Residents week of 3/28

Residents on the east side of Rose Avenue between Oak Street and Maple Avenue should expect to be without driveway access for 3-4 weeks once the pavement removal operations begin. If you are planning to be out of town or otherwise away from your home at some point next week, please move your vehicle(s) to the street before leaving town. We expect that a project team member will knock on your door the day of the pavement removal as a last check to get vehicles out of driveways before pavement removal begins.

Driveway Access for West Side Residents beginning week of 3/21

West side residents will have nightly driveway access while the project work on the east side is occurring. It is important to note that during working hours if there are construction activities occurring on your block there will be construction trucks and equipment blocking the road for long periods of time. It is recommended that you park on a side street should you need access to your vehicle during the day.

For additional information or to view prior project notices please visit the project's website at www.wsprings.com/rosegrove. Thank you in advance for your patience and understanding!
