## **WATER OUTAGE NOTICE**

This notice from the Village of Western Springs is to inform you that weather permitting there will be a **planned water outage on Wednesday, June 28<sup>th</sup>, beginning at 9:00 am and is expected to last about 8 hours.** This shutdown will allow for us to replace a faulty water valve at Central Avenue and 47<sup>th</sup>. In order to complete the work, the section of water main that serves your home must be shutdown.

The water outage is anticipated to last most of the day. While the Contractor is taking every step to minimize the water outage duration, there is always the possibility of unexpected events, which may extend the duration of the shutdown. Should this occur, a project team member will notify affected property owners/occupants and provide an updated restoration time.

When water service is restored, your water may appear discolored. If this is the case, please let your cold water run for approximately 5 minutes. This will purge your plumbing of disrupted minerals and the water will again run clear. If the situation persists after several attempts, or you experience other issues related to the water outage, please call the Public Works Department at 708-246-1800 ext. 200. During non-standard business hours, please call the Police non-emergency line 708-246-8540 and they will contact the on-call person for Public Works.

## **PRECAUTIONARY BOIL ORDER**

In accordance with Illinois Environmental Protection Agency guidelines, a precautionary boil order will also be in effect once water is restored and remain in place for 24 hours, ending at 5pm on Thursday, June 29<sup>th</sup>, 2023. The water is safe for use bathing or washing clothes, but it is recommended to bring water to a rolling boil for at least five (5) minutes before cooking or consumption. This precautionary boil order is only localized to the area of the water outage due to localized pressure loss in the system. If you have any further questions or concerns about the precautionary boil order, please feel free to contact the Assistant Director of Municipal Services, Erin Duffy, at 708-246-1800 ext. 214.

If you have any questions about the project work planned for June 14th, please contact the Resident Engineer Sean Ludwig, at 630-768-2151.

Best,  
VILLAGE OF WESTERN SPRINGS – MUNICIPAL SERVICES
